Music Technology & Sound Engineer

Immersive Audio · Music Technology

Education

Dong-Ah Institute of Media and Arts (DIMA) | Anseong, South Korea

Advanced Major Course in Audio Production (Bachelor's Degree) | Mar 2026 – Feb 2027 (Expected)

Associate Degree in Audio Production | Mar 2020 – Feb 2026

- **Academic Standing:** GPA **4.01 / 4.50** | **Top-Ranked Early-Admission Applicant**

Research and Selected Projects

Research interests Immersive Audio · Musical Expression · Musical Participation

01 IMMERSIVE AUDIO

How can sound reshape space?

Compensation Filter for Live Venues | *2025 · Working prototype*

- Built a system that adjusts a venue's sound to explore recreating the acoustics of another hall. Testing across audience seats and with listeners is planned.

TUTTI · From Spatial Audio Research to Software | *2026 · In development*

- Studied how Sound xR Image and L-ISA Studio place sound across speakers, then developed TUTTI, a spatial audio program for arranging speakers and positioning sounds.

02 MUSICAL EXPRESSION

How can music reflect individuality?

Personalized Electronic Drums | *Aug 2025 · Working prototype*

- Built an electronic drum module whose response can be adjusted to a drummer's touch. The prototype uses manual settings; evaluation with more players is planned.

Trackform · Audio-to-MIDI Editor | *2026 – Present · Working prototype*

- Built a tool that turns recorded music into editable MIDI notes for performance preparation. Users can listen, correct the notes, and export them for further music work.

03 MUSICAL PARTICIPATION

How can we be different, yet together?

CI Interactive Ensemble Room | *2026 – Present · Working prototype*

- Built a listening prototype for cochlear implant users to adjust instrument levels and explore sounds that are easier to follow. It currently uses test sounds; user evaluation is planned.

Music Production

Yamaha AFC Image | *2025 · Outdoor immersive performance*

- Designed and operated the sound system for an outdoor immersive performance, placing sound around the audience through nine speakers and a subwoofer.

Arirang: Sound Reinterpretation | *Mar – May 2026 · Dolby Atmos*

- Reinterpreted Arirang using Lee Doo-yong's 2003 remake, new music, and restored narration. Mixed the soundtrack in Dolby Atmos and stereo.

MATRIX | *2026 · Nonprofit live production platform*

- A platform for comparing venues and finding engineers for live performances. In a four-person team, I independently designed and built the service, from the interface to the server.

Publications & Scholarly Presentations

Outstanding Paper Presentation Award | Acoustical Society of Korea (2026)

Generation of Compensation Filters and a Real-Time Convolution System for Spatial Reproduction | *2026*

- 5th Electroacoustics & Stage Sound Conference, Acoustical Society of Korea.

Can the Current Venue Sound Like Another Hall? Building a Spatial Reproduction System | *2026 Q3*

- Stage Sound Magazine, Vol. 19, pp. 78–87. Stage Sound Engineer Association of South Korea. Technical article in Korean.

Spatial Audio Compensation Across Listening Positions | *In preparation · IEEE VR 2027*

SA4ME: International Workshop on Spatial Audio for Multisensory Experiences

- Preparing a paper on how spatial audio compensation varies across listening positions and how those differences relate to acoustic measures.

Professional & Industry Experience

Freelance Live Sound Engineer | *Seoul, South Korea* | *2022 – Present*

- Engineered FOH, monitors, spatial routing, system tuning, and microphone placement across **200+ live concerts, worship services, and broad-format events**.

Church Sound Engineer | *Various churches, South Korea · 2023 – Present*

- Provided live sound across multiple churches, including one year part-time at Armed Forces Central Church, Seoul.

Technical Intern in System Design | *BLS Co., Ltd. · Jun – Jul 2025*

- Assisted with Waves eMotion LV1 demonstration preparation and technical support for live sound systems.

Academic Activities and Leadership | *DIMA SR Society · 2023 – 2024*

- Organized technical discussions and projects; served as Head of Academic Affairs in 2024.

Technical Skills

Programming and interactive audio Python · Max/MSP · Yamaha ProVisionaire

Spatial and immersive audio Dolby Atmos Renderer · Yamaha AFC Image / Sound xR Image · L-ISA · Spat Revolution · DADman

Measurement and networks Smaart · Dante Controller · Q-SYS

Production and engineering Pro Tools · Logic Pro · Live sound · Recording · Mixing · Mastering · System tuning · Audio restoration

Honors, Awards & Certifications

Outstanding Paper Presentation Award | Acoustical Society of Korea (2026)

Jeong-Do Scholarship · 1st Place · SAMA Sound · 2025

Mi-Rae Scholarship · 2nd Place · SAMA Sound · 2024

Academic Excellence Scholarship · Dong-Ah Institute of Media and Arts · 2020–2026

Q-SYS Architect and Level Zero · QSC · 2026 | House of worship audio training · QSC · 2026

Smaart Operation Level 1 · Rational Acoustics · 2025 | Dante Levels 1 and 2 · Audinate · 2023

National Technical Qualification for Theatrical Arts Audio · Ministry of Culture, Sports and Tourism · 2023

Additional Experience

Korean Tutor · Preply · 2023–Present. Online Korean lessons for international learners in English.

Binaural Playback Preference Experiment · AIRIS Lab, KAIST · 2025. Participant.

Republic of Korea Army · 2021–2022. Blue House / Presidential Security Service; discharged as Sergeant.
